### **Code Enforcement Division**

Code Enforcement staff investigate and follow up on requests for enforcement of the Zoning Code. Residents are encouraged to use the **Hercules Connect** app, available on the [Apple App Store](#) and [Google Play Store](#), to place requests for code enforcement. The app allows you to track a request and see when it has been closed.

**James Jonte** is the City’s new contract Code Enforcement Officer. A former law enforcement professional, accident investigator, public safety officer and Army veteran, James brings his wealth of experience, courtesy and professionalism to bear on requests for enforcement.

Code Enforcement staff visit the site of all requests and attempt to make contact with the property owner or occupant, leaving literature behind to explain the relevant code provisions. ## **Bayfront Heights (ABCD) Community Workshops**

The City of Hercules is seeking community input on the future development of a vacant site along the western shore of Hercules. This vacant site consists of Blocks ABCD (aka [“The Heights”](#) or [“The Bowl”](#)) of the [Waterfront District Master Plan](#).

[Ledcor](#), a residential developer and the developer of The Exchange and The Grand in the Bayfront project, has submitted an initial development proposal for Blocks ABCD. The development proposal includes a mostly residential community with 142 residential townhouses, parks, and some mixed use. However, the proposal does not align with the design and development regulations from the form-based code of the City’s Waterfront District Master Plan (WDMP).

Over three dozen residents participated in a virtual community workshop on June 7. On Wednesday, June 15, a second, in-person workshop/open house will be held. You are invited to attend to learn more about Ledcor’s Proposal and background on the Waterfront District Master Plan and its planning process. The in-person workshop will include the same presentations as the virtual workshop, as well as an opportunity to ask questions, engage in discussion, and provide feedback.

## **PUBLIC WORKS DEPARTMENT**

### **Maintenance & Operations**

Staff completed their regularly scheduled custodial and facility-related tasks in public parks, buildings, and sewer lift stations. They cleaned up numerous illegal dumping and graffiti throughout town and trimmed vegetation on streets as needed for visibility. Assistance was provided to the Recreation Department with replacing the diving board at the Community Swim Center and to the Police Department with cleaning up the streets after an automobile accident. Staff coordinated with Pacific Site, the contractor, on the Baywood Tree Replacement project which is anticipated to start mid-June.

### **Engineering**

The design plans are under review for the Sycamore Crossing development project, including the EBMUD relocation of the waterline into San Pablo Avenue and hotel. The City finally received permits from regulatory agencies so the Sycamore Trunk Sewer Replacement Project can now be bid out. This project will replace a long segment of sewer trunk main leading into the Pinole-Hercules Water Pollution Control Plant. Design on the Regional Intermodal Transportation Center (RITC) is advancing utilizing \$1.2M in grant funding and the City has contracted with GBS who is developing a funding plan to complete the project. The sewer conveyance system for the Willow Storage Facility Developer is under review. The Sycamore Avenue Rehabilitation Project is being bid out with an anticipated Council award date at the second meeting in July. Staff is reviewing a surcharge grading permit for what known as the “Bowl” or Blocks ABCD located at the corner of Bayfront and Railroad. This area is part of the Bayfront Development and while the soil preparation is underway a project has not yet been approved for this site.

#### **Mural Restoration**

Local artist David Cho has been working on the restoration of the “Sycamore mural”, located underneath the I-80 overpass on Sycamore Avenue in Hercules, for the past 6 weeks. During this time, many residents have stopped by to chat with David, and thank him for restoring the mural. The mural itself is massive. Approximately 150 feet long and almost 20 feet tall at the peak. The mural is a history of Hercules and the indigenous Ohlone Native Americans.

If you haven't had a chance to see it yet, Kathy Chouteau from the Richmond Standard wrote a nice article about the restoration project posted June 2, 2022, here's the link [Restoration of historic Hercules mural approaching finish line - Richmond Standard](#)

#### **Diving Boards**

# Help Shape Hercules' Waterfront!

## Join the Waterfront Blocks ABCD Community Workshop

The City of Hercules is seeking community input on the future development of a vacant site along the western shore of Hercules. This vacant site consists of Blocks ABCD (aka "The Heights" or "The Bowl") of the Waterfront District Master Plan (WDMP). Leducor, a residential developer and also the developer of The Exchange and The Grand in the Bayfront project, has submitted an initial development proposal for Blocks ABCD. The development proposal includes a mostly residential community with 142 residential townhouses, parks, and some mixed use. However, the proposal does not align with the design and development regulations of the City's WDMP.

You are invited to attend either of two community workshops, one virtual and one in-person, to learn more about Leducor's Proposal and background on the Waterfront District Master Plan and its planning process. Both workshops will include the same presentation, an opportunity to ask questions, engage in discussion and provide feedback.
