

# CITY OF HERCULES

## FENCE STANDARDS – CORNER LOT

-  3-foot Fence
-  6-foot Fence
-  Over 6-foot - As Allowed by Administrative Design Review and Building Code

### Vision Clearance Area

- No fence, wall or hedge which obstructs visibility of and from vehicles shall be constructed, grown, maintained or permitted higher than 3 feet above the curb grade within 35 feet of the intersection of the curb lines or in the case of rounded corners, 25 feet from the point on the curb closest to the center of the intersection. If there are no curbs, the edge of the right-of-way shall be used.

### **Hercules Municipal Code Section 13-30.610: Fence, Wall and Hedge Height**

- The height of a fence, wall or hedge shall be measured from the highest natural ground level immediately adjoining the fence, wall or hedge to its highest point above the ground.
  - The maximum height for a fence, wall or hedge in a required rear or side yard is 6 feet.
  - The maximum height for a fence, wall or hedge in a required front yard and along the street side yard of a corner lot within 20 feet of the front property line is 3 feet.

- Coordinating with adjacent property owners and researching existing easements prior to fence construction is recommended.
- Homeowner's Associations and Overlay Districts may have stricter standards.
- Fences over 6 feet in height may require a Building Permit. Consult the Building Division for more information.

***Prohibited Fences:** barbed wire fences within 4 feet of any sidewalk & wire fences less than 3 feet from any public sidewalk.*
