

NOTICE:

Upcoming Vote To Maintain Victoria By The Bay Landscaping & Lighting Services

Hercules' Landscaping & Lighting Assessment Districts (LLADs) provide maintenance services through annual assessments paid by property owners. These services keep your neighborhood attractive and well-kept.

Current assessment rates for your Victoria By The Bay LLAD do not sufficiently cover service costs. Increases are needed to fund the program or services will be cut to balance the budget. Assessment levels can only be increased if property owners approve the new rates through a mail balloting process.
