

BUDGET PLAN for FY 2015-16

CITY OF HERCULES, CALIFORNIA June 23, 2015

Mission Statement

"Our mission is to lead our diverse community and enhance the quality of life in the City of Hercules, now and in the future. We do this by providing effective, efficient, responsive, and innovative services with integrity."

VISION STATEMENT

The City of Hercules is a richly diverse community, serving as a major transportation hub and a prime destination for the Bay Area. It is built on a sound economic and physical infrastructure, and its residents enjoy public safety, security, well-maintained parks, streets and public facilities. We conduct our work in an atmosphere of trust and respect. We constantly look for better ways to deliver services and always strive for excellence.

Message Update BUDGET PLAN for FY 2015-16

CITY OF HERCULES, CALIFORNIA June 23, 2015

Message Update:

Honorable Mayor and Members of the City Council:

The City of Hercules Budget was adopted on June 23, 2015. The budget decision making process which I introduced this year seemed to work well. Enclosed in the budget package is the prior City Manager message to the Mayor and City Council, updated Decision Packages, Budget Referrals and the Budget Balancing Spreadsheet.

As detailed in the Budget Balancing Spreadsheet the council adopted all 11 Recommended Decision Packages; Alternate Decision Package #2; General Fund Decision Packages #1 (modified to \$100,000), #3 through #5; and Budget Referrals #1 (decreased by \$50,000), #2 (decreased by \$20,000). This resulted in a General Fund Revenue Budget of \$13,850,928 and a General Fund Expense Budget of \$13,726,779.

Having a balance budget sets the stage for turning our efforts to getting our two tax measures renewed in the fall.

David Biggs

City Manager

111 Civic Drive Hercules, CA 94547 www.ci.hercules.ca.us

BUDGET PLAN for FY 2015-16

CITY OF HERCULES, CALIFORNIA June 23, 2015

Honorable Mayor and Members of the City Council:

It is my privilege to submit my first budget as the City Manager of Hercules for the Mayor and City Council's consideration. This proposed budget has been developed to greatest extent possible in conformance with the Statement of Financial Principle and Policies (copy attached) adopted by the City Council on December 16, 2014, and with the goal of continuing down the path of financial stability.

Addressing Community Priorities in the 2015-2016 Budget

The City of Hercules strives to reflect community priorities and input into all policy planning, including its budget. A recent community survey commissioned by the City showed that over 2/3rds of Hercules respondents said the City is heading in the right direction, a strong finding which reaffirms the hard work of the City Council and City staff in recent years.

This budget and our ongoing effort to maintain this positive momentum will address the following community priorities our constituents have indicated as important to them, including:

- Maintaining the City's financial stability and enhancing fiscal accountability
- Maintaining the local Hercules Police Department, including:
 - o Maintaining the number of police officers patrolling neighborhood streets
 - Expanding neighborhood crime prevention programs
- Attracting business to Hercules
- Preventing cuts to street maintenance

While this proposed budget is being considered in an improving economic climate with some revenues increasing and with some very positive development projects moving forward, we still need to be mindful of ensuring we are living within our means and matching on-going expenses with on-going revenues in order to maintain essential City services to preserve and enhance the quality of life in Hercules.

The City has been through some very challenging times including having weathered the worst recession since the Great Depression which was compounded by a level of questionable decision making and actions on the part of some former public officials. These circumstances lead to the declaration of a Fiscal Emergency in 2011 which remains in effect today.

As I shared with the community in my January 26, 2015, update which was mailed to every home:

The City's long-term financial sustainability continues to be a focus for the City Council and staff. We are very fortunate that Hercules voters approved two tax measures that have become the main way we are able to continue to provide our current reduced level of services and remain viable as a community. Measure O, the half-cent sales tax, was approved in June of 2012. Given continuing declines in revenues and the loss of redevelopment, voters subsequently approved Measure A in June of 2013, which is a 2% utility user's tax. The trust and confidence the electorate has shown through the passage of these two measures is one of the reasons I was attracted to the City Manager's position here in Hercules. It is in the forefront of my mind each and every day and I am committed to demonstrating that this trust has not been misplaced.

These two measures are estimated to generate over \$1.7 million in revenue in the fiscal year which ends June 30, 2015. Without these revenues we would not be in the position to continue to provide the services important to our community even at our current reduced level. While we have seen some improvement in revenues overall, Hercules still receives a low share of the property taxes which you pay and our retail base is not significant. As such, even with City employee wage and benefit concessions remaining in place, costs continue to increase, thereby continuing the need to look toward ways to generate revenue through economic development and to reduce expenditures by becoming more efficient and effective.

This year's budget relies heavily on the revenues from these two tax measures. Should these measures expire, we would see a nearly \$2 million shortfall that we would have to address

out of a \$13.4 million operating budget. This proposed budget documents the very basic level of services to the community which can be sustained with these revenues in place.

General Fund Operating Budget

As your City Manager, and consistent with the Financial Principles & Policies, a key goal of this budget is to match on-going expenses with on-going revenues to the best degree possible. In addition, one-time or not regularly recurring expenses have been matched to one-time revenues or available fund balance. This will help to ensure that we budget at a level which is sustainable on a year-to-year basis and will smooth out any big swings from an operational perspective.

In developing the budget proposed for FY 2015/16, we are utilizing a new approach for Hercules. As noted above, the process reflects the Council adopted Statement of Financial Principles & Guidelines. The base upon which the proposed budget has been developed starts with the FY 2014/15 budget including any modifications to date. Anticipated revenues for the 2015/16 fiscal year are then estimated using current year-to-date figures as the starting point and information from a variety of sources to provide a realistic and as accurate figures as possible. We also endeavor to identify those portions of our revenue stream which may be of a one-time nature.

The proposed budget assumes the same level of staffing as provided for in the current year and that all positions are filled for the entire year with the same service levels provided. Departments submit a well scrutinized level of operations and maintenance line items which are incorporated in the proposed budget. Finally, unavoidable cost increases are added to the prior year budgeted expenditures so that projected revenues can be compared to projected expenditures in order to determine if an operating surplus or deficit exists.

The good news is that this base General Fund Budget results in a projected small operating surplus of approximately \$26,000. In addition, the City's available fund balance has increased so these essentially one time monies can also be allocated. So the question is how we make the best use of this small operating surplus, especially ensuring that on-going expenses do not exceed on-going revenues, and the available one-time funds, to begin to address our highest priority needs. This is proposed to be done through the consideration of a series of "Decision Packages" which have been developed for the City Council's consideration. Each Decision Package will propose to increase expenditures, decrease expenditures, enhance revenues, or make use of reserves or fund balance as appropriate to ensure a balanced budget. There are no full-time positions proposed to be added to the City's work-force and the budget is very

much a status-quo budget in regard to service levels. Decision Packages can also establish policy direction on a forward going basis. As City Manager, I have recommended sufficient Decision Packages to provide for a balance budget for FY 2015/16 and to address what I believe are our highest priority needs. Unfortunately, there are not sufficient revenues to meet all of the high priority needs in the community.

There are several Alternate Decision Packages identified should the City Council wish to consider those in-lieu of or in addition to the ones which I have recommended as City Manager. If we had more resources, these Alternate Decision packages would have been recommended for funding. In addition, as the City Council considers the proposed FY 2015/16 General Fund budget and receive comments, suggestions, and other alternatives from the Mayor and City Council, community and other stakeholders including our employees, we will prepare Budget Referrals as requested by the City Council to flesh-out other options. The City Council will then be able to make its final budget balancing decisions based on selecting some combination of Decision Packages and Budget Referrals to ensure a balanced budget and make other budget policy determinations.

My recommendations regarding the General Fund Decision Packages and Fund Balance Decision packages discussed below are laid out in a Budget Balancing Spreadsheet which is attached.

Fund Balance Recommendations

The City of Hercules has slowly recovered from the Great Recession and other financial difficulties through hard work and considerable effort. The 2014/15 Fiscal Year budget anticipated a \$358,275 transfer from the Fiscal Neutrality Fund to cover a small budget deficit. It is now anticipated that this transfer in will not be needed and that we will have a small surplus based on higher than planned revenues, mostly one-time in nature, and by working hard to control costs. In addition, as noted above, there are some additional one-time revenues which can also be allocated to some high priority needs.

A key financial sustainability objective is to build the City's reserves to initially be equal to one month's General Fund expenditures, and over time to increase that to two months. Having a Fund Balance at this level ensures there are little to no cash flow issues, interest earnings are generated (albeit at a low level in the current interest rate environment), and there would be an improved outlook from a credit and ratings perspective. In addition, reserves provide for maneuvering room and an ability to respond in a systematic and strategic way to significant impacts like the elimination of redevelopment or a natural disaster. A portion of

the available Fund Balance is also attributable to the concessions made by our employees during the depth of the Great recession, most of which are on-going today.

While we have not yet achieved our initial Fund Balance Reserve goal of one-month's expenditures or 8.33%, it is anticipated that this will occur over time. To that end, there are a number of Decision Packages which make use of current and anticipated Fund Balance in order to make investments in key areas including in certain designated reserves. Beyond these Decision Package recommended uses of Fund Balance, it would be timely to designate and appropriate a fixed dollar amount of available Fund Balance to certain other reserves and purposes as part of the adoption of the 2015/16 Fiscal Year Budget. In future years, these designations would normally occur at the close-out of each fiscal year based on City Council adopted policies or by specific action of the City Council at that time.

Based on the audited General Fund Balance as of June 30, 2014, together with the anticipated positive results for FY 2014/15 as projected in the mid-year update, it is anticipated that as of June 30, 2015, the General Fund Working Cash Balance will be just slightly in excess of \$1,300,000. A portion of this amount is recommended to be used in a variety of ways to address operational needs through Decision Packages 1, 3, 4, 7, 9, and 11, totaling \$243,500, as noted above. In addition, there are five other uses of Fund Balance articulated as separate Fund Balance Decision Packages number 1 through 5.

These five items are more strategic designations designed to ensure the City is on the path to long-term financial sustainability - an increase in the Fiscal Neutrality Fund of \$250,000; establishment of a Capital Projects Fund with an initial contribution of \$200,000; an Employee Retention Program with an allocation of \$158,000; A reserves of for restricted Planning related fees of \$362,000; and, allocation of Richmond Sanitary revenues of \$215,000. Unfortunately, we do not have the resources to meet all of the needs required to fully sustain Hercules as a safe and well-maintained place to live, though we are working very hard to get to that point.

Special Revenue and Enterprise Fund Budgets

Special Revenue Funds are used for revenues and expenditures which are restricted. Examples of the main Special Revenue Funds are the Landscape & Lighting Assessment District Funds, and the Capital Improvement Project Fund. The Enterprise Fund is the Waste Water Fund. These, and other specialized funds such a Development Impact Fees, have their own budgets as presented in this document.

Landscape & Lighting Districts are funded from assessments paid by property owners in the various districts. During the last few months City staff and our Assessment Engineer have been undertaking a comprehensive review and audit of the assessment districts which is in the review process currently. This process will result in modifications to the expenditure budgets in each of the Districts and will be incorporated into the final budget after a separate review and approval process by the City Council in June and July.

The Capital Projects Fund is used to account for grant funds made available to the City for a variety of grant funded projects. Capital projects for 2015/16 include projects for Parks \$55,000; Streets and Sidewalks \$1,130,000; Waste Water \$12,295,000; and the Intermodal Transit Center (ITC) \$13,379,226

The Waste Water Fund revenues are primarily charges for sewer services and some grant funds for waste water related capital expenses. The budget for the Waste Water Fund operations is mostly status quo with much of the operating expenditures related the Joint Waste Water Plant in Pinole plus the operation and maintenance of the local collection system. The amount of \$250,000 is budgeted for a consulting firm to provide project management for bond funded projects such as 24" Main Line, infiltration, Bayfront lift station, and lift station pumps. A considerable amount of funding is also set aside for the expansion of the plant which will be proceeding later in 2015 funded from a loan from the State Water Resources Board.

Capital Improvement Program Budget

The City's proposed Five Year Capital Improvement Program has been updated as part of the process of developing the FY 2015/16 Budget. Generally, the first year of the Five Year CIP is incorporated into the budget as the spending plan on capital projects for that year. The funding available for capital needs has generally been constrained to Assessment District funds, outside funding sources like State Gas Tax and grants, and occasionally available Development Impact Fees. It should be noted that funding sources can fluctuate from year to year. As an example, for FY2015/16 the State Gas Tax revenue is budgeted for \$528,338 a reduction of 25% from FY2014/15 of \$700,616 due to the reduced price of fuel in prior months. There is little to no General Fund revenues available to support the City's capital needs. This may be change over time with the proposed establishment of a Capital Projects Fund within an initial contribution of some one-time General Fund monies as proposed in the FY 2015/16 Budget.

The Five Year Capital Improvement Program format and development process is anticipated to be upgraded with the development of the budget for the 2016/17 fiscal year. This will be done under the leadership and guidance of the new Public Works Director Mike Roberts.

What the Future Holds

Hercules is on-track to a brighter, more financially sustainable future which can better support the high quality of life offered here thanks to the support of our electorate. With wonderful neighborhoods cascading up the hills from Refugio Valley, the new urbanist communities along the Bay, well maintained parks and acres of dedicated open space, a broadening retail base with new projects coming on line in the next few years, ease of access to employment centers with great transit connections, we need to make strategic investments to preserve this wonderful community. The community will be asked to extend the two tax measures, at the same level with no increases, which are necessary to support our limited level of public services. However, if these tax measures are extended, we can look forward to a day when we can enhance our level of Police services including better 911 response times and crime prevention programs, do more to attract and expand our retail and business base, repair and maintain our streets, enhance fiscal accountability.

The proposed 2015/16 Budget sets the stage for this continued recovery for our dynamic city on the Bay. We continue to look internally to become more efficient and reduce costs. In keeping with local government best practices, we will also continue to explore opportunities to partner with other organizations or agencies to provide needed services. This could include contracting out services where there are economies of scale or where a partner can bring additional resources to the table. Additional focus will also be placed on expanding the City's tax base through key economic development opportunities. These types of approaches will help to ensure that our base level of services are supported with services added or expanded only once new or increased revenues are in place and proven with the passage of time.

Conclusion

Hercules is a wonderful community which has been through some tough times. The City is on the right track towards long-term financial stability and enhanced fiscal accountability. This positive momentum may have been tempered by factors outside of local control like the Great Recession which impacted our revenues, but with a well thought out and strategic approach to ensuring a stable financial future, the City as an organization and the community can thrive in spite of these past setbacks and a high quality of life care be sustained in our corner of the East Bay. I look forward to the Council and community's review and

deliberation of the spending plan for FY 2015/16 and to continuously improving how we operate and to enhancing our service delivery and programs.

David Biggs City Manager

ACKNOWLEDGEMENTS

We greatly appreciate the dedication of all City employees for their contribution towards providing quality services to Hercules citizens. We would also like to acknowledge those who assisted in developing the FY 2015-16 Operating and Capital Budget. A special thanks goes to the members of the *Finance Sub-Committee and the Finance Commission* for their advice and input in developing the FY2015-16 first look budgets leading to the final budget for FY2015-16. Also, the collaborative efforts of the City's senior staff members and representatives of the City employee organizations greatly contributed to this year's successful budget process in addressing the fiscal challenges the City faces.

CITY OF HERCULES

STATEMENT OF FINANCIAL PRINCIPLES AND POLICIES

Adopted December 16, 2015

Establishing certain generalized principles governing the financial affairs of the City is desirable to guide both the financial management and financial planning for the City. The City of Hercules is accountable to its citizens, employees, and other stakeholders for the use of public funds and the best management of resources. These Financial Principles will provide City staff with guidance in preparing and submitting the annual budget for the City and in the preparation of financial forecasts. The adoption of certain financial policies is necessary and appropriate to implement the financial principles and to help ensure financial sustainability and to improve the City's credit worthiness and bond rating.

Financial Principles

- Adopt a balanced operating budget by June 30th of each year for the following fiscal year without
 using General Fund undesignated fund balances or reserves. The budget thus adopted shall
 include expenditures necessary to provide for the well-being and safety of the community subject
 to available revenues;
- Fees for services shall be updated annually to recover, as much as possible, the cost of providing
 the services and to allow for the impacts of inflation, with fees not exceeding the cost of providing
 the service. In some instances, the City Council may elect to not recover the full cost of providing
 the service and the City Council shall determine the appropriate cost recovery level of individual
 services;
- Revenues in excess of expenditures at the end of a fiscal year shall be applied on a priority basis
 to satisfy the general fund reserve requirements, capital projects reserves, capital equipment
 reserves, and liability reserves before being appropriated for other uses.
- Current year operating expenditures shall be funded by current year operating revenues;
- Manage the City's finances as to ensure repayment of debt and improvement in the City's bond rating in order to minimize future issuance and interest costs to the City.
- Meet all financial reporting requirements in a timely manner and ensure appropriate internal controls are in place to ensure financial accountability.

General City Financial Policies

- Employees are one of the most important assets of the City and should be compensated at an appropriate level and commensurately with the City's ability to pay;
- Establish, and then maintain, a "minimum reserve" for economic uncertainties equal to one month's or 8.33% of expenditures of the current year General Fund budget exclusive of

- Nonspendable, Restricted, and Assigned fund balance with a goal of increasing that to two months or 16.66% of expenditures in the future.
- The General fund reserve shall provide for meeting contingency needs, investment earnings, and shall serve as a cash flow reserve.
- Provide for capital equipment replacement as necessary to achieve greater efficiency and effectiveness in the City's operations;
- One time revenues shall be utilized for one-time expenditures or to enhance reserve funds as appropriate or necessary;
- The City shall maintain, replace, and improve its infrastructure and the City shall set aside a
 reasonable and prudent amount of General Fund monies for capital projects including the repair
 of various facilities as part of its annual budget process to the greatest extent possible.

Revenue & Expenditure Policies

- Realistic and prudent estimates of revenues shall be used to maintain financial flexibility;
- Revenue raising alternatives shall be explored as necessary and the City shall pursue grants available to local government;
- Programs funded through user fees shall be self-supporting to the greatest extent possible or at a level proscribed by the City Council;
- Full recovery of overhead and internal services from grant and special or enterprise funds shall be pursued to the greatest extent possible and as permitted by the restrictions associated with each fund.

Special Revenue, Enterprise, and Internal Service Fund Policies

- The City shall abide by applicable rules and regulations pertaining to the expenditures of special revenue funds as required by each funding source;
- Enterprise activities shall be programmed to generate sufficient revenues to support the enterprise's operations including overhead and internal services, debt service requirements, and current and future capital needs;
- Special Revenue and Enterprise funds shall adhere to all other applicable fiscal policies of the City.
- Internal Service funds shall be established as appropriate to ensure cost recovery on a fair and equitable basis;
- Transfers to the General fund from other funds for overhead costs shall be reviewed annually and conform to the Federal Office of Management & Budget A-97 Guidelines.

Debt Policies

- Debt shall only be incurred for capital improvement projects and only if the project cannot be funded by recurring or one-time revenues;
- Proceeds from long-term debt shall not be used for current on-going expenditures;

- Short-term borrowing shall not be used for operating expenditures unless it is a Tax & Revenue
 anticipation Note or other short-term cash flow borrowing and shall be limited to repayment in
 the same fiscal year;
- The use of the City's General Fund as security for debt issues should be limited to the greatest extent possible to capital projects which serve the general benefit for the City.

Forecasting Policies

- The City shall develop and maintain a five to ten year Financial Forecast which shall be updated two times each year with any unexpected changes in economic conditions or other circumstances prompting more frequent updates;
- The Financial Forecast should recognize the effects of economic cycles and shall differentiate between one-time revenues associated with one time economic activities and revenues resulting from base economic growth;
- Financial Forecasts shall identify the assumptions used in their preparation and the risks associated with those assumptions;
- Revenue and expenditure estimates should be prepared on a realistic basis with a target of +/- 2
 percent variance from the estimate for revenues and a +/- 1 percent variance for expenditures;
- On-going revenue increases based upon site specific development shall be incorporated using a realistic estimation of timing and shall not exceed the midpoint of the range of estimated revenues.

Decision Packages

General Fund Operating Budget

Decision Package # 1: Records Management Upgrades [One-Time] — Procure a comprehensive information management solution for the conversion of City documents into a digital format for preservation and ease of access. The service would include scanning, indexing, OCR-ing, quality control, off-site storage (if needed) and destruction (in accordance with the retention schedule). This would provide improved efficiencies, streamlined public records act request response, and immediate access to City records. Expense Increase: \$50,000

Decision Package # 2: Enhanced Staff Training – Restoration of funding for staff training beyond the minimum legal requirements would enhance the City's operations and would assist in employee development, retention and improved morale. Expense Increase: \$12,000

Decision Package # 3: Supplemental Special Election Costs [One-Time] – Two local revenue measures sunset in the near future and a special election is required to allow the electorate in Hercules to consider extending the measures without increasing tax rates. The amount proposed will be above what is already incorporated into the proposed budget if the November 2015 proposed election date is not consolidated with any other ballot matters. Expense Increase: \$35,000

Decision Package # 4: Police Temporary Records Specialist [One-Time] — Due to an extended Maternity leave, the Police Department will require a temporary Records Specialist to meet mandated operational needs for a period of 4- 6 months. Expense Increase: \$25,000

Decision Package # 5: Police Bullet Proof Vest Replacement – Bullet Proof Vests have a five-year shelf life and the Police Department needs to purchase 5 replacement vests. In addition, the Police Department is anticipating hiring four to five new Reserve Officers who will require vests. The costs of 10 vests will be \$8,000 of which 50% or \$4,000 is reimbursable from the Department of Justice. Expense Increase: \$8,000; Revenue Increase: \$4,000.

Decision Package # 6: Police Department Ammunition and Firearms – The Police Department has experienced an increase in the fees associated with firing range use and training fees. The cost of ammunition is also on the rise. Replacement of certain weapons and maintenance of weapons has also resulted in the need for an increased appropriation to ensure our Police Officers are appropriately trained and equipped. Expenditure Increase: \$ 5,000.

Decision Package # 7: Police Officer Body Cameras – The City's joint powers insurance provider has recommended that Police Officers be equipped with body cameras as a risk mitigation strategy. The purchase and maintenance of body cameras for Police Officers has the potential to reduce liability and litigation exposure and associated costs. The cost to purchase the cameras is a one-time item of \$33,500 with annual operating and maintenance costs of \$2,800. Expense increase: \$36,300.

Decision Package # 8: Reorganization of Parks & Recreation Staffing – As the City downsized due to the Great Recession, positions were eliminated in all departments with the staffing structure in parks & recreation being based on remaining positions rather than the best structure to deliver programs and

services. The Interim Parks & Recreation Director has reviewed the staffing needs of the Department and implementation of the recommendations is advised. Expense Increase: \$20,000

Decision Package # 9: Cost Allocation Model [One-Time] – In order to ensure cost recovery through grant funded programs and to ensure transparency as to program and service costs, the City needs to have an updated cost allocation model developed and implemented. Expense Increased \$40,000.

Decision Package # 10: Modification of Child Care Program - The costs and difficulty to recruit and retain qualified staffing in the City's current State-licensed Child Care program is resulting in higher costs and an increasing subsidy from the City's General Fund. It is recommended that a high quality before and after school care program be provided on a non-licensed basis consistent with the practice of most cities. Expense Reduction: \$3,520.

Decision Package # 11: General Plan Circulation Element Update [One-Time] – Provide funds for a minor update to the Circulation Element of the General Plan to assess a Complete Streets Policy as required by MTC for grant funding and update the lists of project and street classifications. Expense Increase: \$60,000

General Fund Operating Budget Alternate Decision Packages

Alternate Decision Package # 1: Hazard Mitigation Plan and Climate Adaptation Strategy - Undertake and update of the Hazard Mitigation Plan of the General Plan and incorporate a Climate Adaptation Strategy. Expenses Increase: \$40,000

Alternate Decision Package # 2: Library Extra Hours Funding – The Friends of the Library and the Library Foundation have been providing funding for 5 extra weekly hours at the Hercules Library since the City ended its contributions. They have requested that the City transition back into the role of supporting these additional hours over a four year period in order to allow the Library support groups to focus on other needs. Proposed Expense increase by Hercules Library Foundation is: FY2016 \$14,000; FY2017 \$28,000; FY2018 \$42,000

Alternate Decision Package # 3: Partial Reinstatement of Employee Concessions – In order to assist the City through difficult financial times, City employees agreed to a series of wage and benefit concessions including reduced working hours which impact service delivery levels starting in 2010 which remain in effect currently. In order to address employee retention and morale, a partial reinstatement to extent affordable is warranted. Sworn: Uniform allowance \$17,100. Sworn 3.7% wage reduction \$93,200. Non-Sworn: Reinstate Step increases \$140,000. Non-Sworn: From 36 hr workweek to 40 hr workweek \$280,000. Expense Increase: \$530,300

Alternate Decision Package # 4: Investment in Street Maintenance — Given anticipated declines in Gas tax revenues and lack of recent investment in street maintenance due to lack of General Fund resources, the City's streets are continuing to deteriorate. An annual on-going investment in street maintenance and repair is needed to avoid higher costs in the future. Expense Increase: \$250,000

Alternate Decision Package # 5: Reinstatement of Minimal Code Enforcement Program - The City's Code Enforcement program has been reduced to a very minimal compliant and health & safety response basis. The City Council has expressed an interest in reactivating a minimal level of pro-active Code Enforcement. A contract for services with an individual or firm to provide part-time code enforcement services could

provide for the highest priority code enforcement activities on a pro-active basis. Expense Increase: \$50,000.

General Fund Balance Decision Packages

Fund Balance Decision Package # 1: Capital Projects Fund — Establish a Capital Projects Fund with an initial contribution of \$200,000 to accumulate resources as they become available to fund capital projects, infrastructure, and facilities in the community, especially where funds would be accumulated overtime or to provide the local match for grant funds. Projects that would to be funded would be identified in the Five Year Capital Improvement Program as update each year.

Fund Balance Decision Package # 2: Fiscal Neutrality Fund — Designate an additional \$250,000 for economic uncertainty with will increase the reserved balance in the Fiscal Neutrality Fund to \$750,000.

Fund Balance Decision Package # 3: Richmond Sanitary Service Differential in Rates — The Hercules City Council adopted the Fifth Amendment to the Franchise Agreement between the City of Hercules and Richmond Sanitary Service, Inc (RSS) on November 26, 2013. In adopting the Amendment, the City Council directed that the differential in rates between the new City collection rates and the post collection rates established in the new Post Collection service agreement be collected by RSS and a check sent to the City of Hercules. The Hercules City Council should consider a variety of options for disposition of the rate differential, including potential roadway projects, clean water programs, etc or rate stabilization. The total received for the differential in rates is \$215,912.31 (FY2014 \$86,320.64; FY2015 through March \$129,519.67). Staff will be recommending that the available funds be applied to Street Improvements since there is no funding available from the City's General Fund for needed street work and increased collection services are further impacting the City's streets.

Fund Balance Decision Package # 4: Employee Retention Program – The City has begun to see increased employee turnover as other agencies in the area have eliminated employee concessions and reinstated Cost of Living increases. While the City of Hercules is not in the position to addresses employee concessions, an allocation of \$158,000 from available fund balance is recommended to be set-aside for a one-time Employee Retention Program.

Fund Balance Decision Package # 5: Reserve for Restricted Panning Funds — The Planning Department collets fees from development which are restricted for General Plan Updates and Building & Safety related training. These fees flow into the City's General Fund and with development taking place these revenues need to be segregated as to not overstate available General Fund general purpose revenues and in order to ensure they are available for the restricted purposes. A fund balance designation of \$362,512 is recommended.

Budget Referrals

June 11, 2015

Budget Referral # 1: Unemployment Payments – Unemployment payments were projected at \$100,000 in the first look budget, can this amount be reduced given historical trends and lower claims history?

Response: Given recent claims history and the unlikely occurrence of additional layoffs in the next fiscal year, this budget for unemployment claims could be reduced by \$50,000 to \$50,000.

Budget Referral # 2: Claims – The Risk Management budget allocates \$100,000 for possible claims. Given recent claims history can this amount be reduced?

Response: After consultation with the City's Risk management JPA, it is possible to reduce the annual appropriation for claims by \$20,000 to \$80,000 based on the average number of claims filed per year. This amount could be reduced further at the discretion of the City Council if the Council is comfortable with the potential of needing to utilize a portion of the Fiscal Neutrality reserve if claims were to exceed the amount budgeted.

Budget Referral # 3: Richmond Sanitary Funding Additional Information – Fund Balance Decision Package # 3 describes setting aside restricted funding from Richmond Sanitary Services which can be used for solid waste related activities or to mitigate impacts from solid waste operations; how much of this funding is on-going for FY 2015/16 and can a portion of the one-time or on-going funds be used for the purchase of reusable bags for distribution to residents or for water quality programs?

Response: The \$215,000 identified in Fund Balance Decision Package # 3 reflects the funding which has accumulated in FY 2013/14 and 2014/15. It is anticipated that \$160,000 will be received in FY 2015/16 and that this amount will be on-going (?). A portion of the available funds could be utilized for the purchase of reusable bags to be distributed to residents at community events and activities in an amount to be determined by the City Council. In addition, the cost of meeting water quality mandates exceeds available revenues in the Storm Water Fund which has resulted in a negative cash balance of \$186,286 through June 30, 2014, which will need to be absorbed by the City's General Fund. For FY 2014/15, as of year-end, it is projected that expenditures will exceed revenues by an additional \$12,403. The proposed FY 2015/16 Budget has expenditures exceeding revenues by \$21,216. Utilizing apportion of this solid waste related funding to mitigate a fair share portion of water quality activities for FY 2014/15 and/or FY 2015/16 would assist in eliminating this impact on the City's General Fund.

Budget Referral # 4: Police Department Revenues - For FY 2015/16, revenues for Police related services under Fines & Forfeitures, Vehicle Code Fines and Towed Vehicle Release Fees shows a significant decline from the amount budgeted in the current fiscal year. Can the reason for this decline be explained and options to increase revenues in these areas explored?

Response: At the time the proposed FY 2015/16 was first prepared revenues in Fines & Forfeitures and Towed Vehicles were running well behind what was budgeted. A review of

revenues through mid-May indicates a strong recovery and the year-end projected revenues have be adjusted upwards accordingly as indicated below:

	FY 2014/15	FY 2014/15 YE	FY 2015/16	FY 2015/16
	Budget	Estimate	Original Proposed	Updated
				Projected
Vehicle Code	\$30,000	\$48,249	\$20,000	\$45,000
Fines				
Towed Vehicle	\$30,000	\$35,099	\$22,000	\$35,000
Release Fees				

In addition, five years of date for the number of citations issued and the number of vehicles towed are provided for comparison.

	2010/11	2011/12	2012/13	2013/14	2014/15 YTD
Citations	1,344	769	494	744	574
Towed Vehicles	681	404	336	439	423

Options to increase revenues include adjusting the current schedule of Fines & Forfeitures and Towed Vehicle charges. Staff could undertake a survey to compare our current charges in these areas to other cities in the region and return to the City Council in January, 2016, with recommendations in this regard.

Budget Referral # 5: Vehicle Maintenance & Repair – Given the City's more active vehicle replacement efforts, why is the budget for Vehicle Maintenance & Repair not decreasing?

Response: While the City is replacing vehicles and these vehicles are under a manufacturer's warranty, there remains a back-log of maintenance and repair of older vehicles (utility truck, evidence van, emergency operations center van) and equipment like generators (five generators, light standards, tires) which are funded through this line-item given years of deferred maintenance. It is likely that this line item could see some reduction in future years as the vehicle replacement programs see more vehicles replaced and the back-log of repairs is eliminated.

Budget Referral # 6: Telecommunication Revenues — The line item for telecommunication related revenues shows a decrease; can this decrease be explained and information provided as to ways to reverse this trend?

Response: An existing lease with Nextel for a site has terminated which has resulted in a reduction in revenue by \$30,000 per year. There is a current effort underway to update the City's Telecommunications ordinance and a review of other telecommunication site leases is hoped to result in additional revenue generation.

Budget Referral # 7: Reserve Goal — What elements of reserves and fund balance would count towards meeting the initial fund balance reserve goals of one month's expenditure or 8.33% for the City's General Fund and how are we doing towards meeting that goal?

Response: Based on a \$13.5 million General Fund budget, the City has met its initial reserve goal of 8.33% would require a reserve of \$1,125,000. The Fiscal Neutrality Reserve has \$1.3 million, of which \$500,000 is designated to provide for the \$500,000 insurance deductible in the event of an earthquake. This \$1.3 million reflects the City not having to make the \$358,000 transfer in to the General Fund from the Fiscal Neutrality Reserve for FY 2014/15 based on improved revenues and reduced expenditures. The City's adopted Fiscal Principles and Policies look to achieve a two month reserve or 16.66% over time. Meeting this higher goal would require \$2.25 million in reserves.

Budget Referral #8: Healthcare Costs - The proposed budget assumes increase in the cost of healthcare benefits provided to employees and these unavoidable cost increases are anticipated to be funded by the City; what can be done to address this in future years?

Response: The health insurance benefit program offered by the City under the terms of it agreements with employees is the CalPERS Health program. This program has a range of offerings available to all participating employers through CalPERS and rates are renegotiated with the health care insurance providers each year. The amount which the City contributes to the cost of health insurance is defined in the agreements with our employee groups. While there is a cost sharing currently, how this is defined has the City responsible for a significant portion of any of the annual increases. There are two main ways these future cost increase could be mitigated. The City could review participation in CalPERS Health program which would require agreement from employee groups or we could negotiate a different cost sharing formula with employee groups in the future.

Budget Referral # 9: Comprehensive General Plan Update - When was the last comprehensive update of the General Plan including the Land Use Element undertaken and what would be the cost to do a comprehensive update?

Response: The last comprehensive update of the City's General Plan including the land use element took place in 1995. Various elements have been updated over time including the Housing Element this year and the proposed update of the Circulation Element in 2015/16. The estimated cost of a comprehensive update would be between \$750,000 to over \$1 million.

Budget Referral # 10: Hercules Golf Club Fund - Fund 730 is identified as the Hercules Golf Club Fund with a balance of \$52,786. What is the purpose of this fund and are these funds restricted and if so for what types of uses?

Response: The Hercules Golf Club Fund was established to hold funds raised by the now defunct Hercules Men's Golf Club in support of youth programs.

Budget Referral #11: Items Impacting General Fund Available Cash - As discussed in Budget Referral #3 above, there is negative cash in the Storm Water Fund of \$186,286 which needs to be covered by the City's General Fund. How will that be remedied and are there any other negative cash balances being covered by the General Fund?

Response: At some point in time there should be a formal transfer from the General Fund to the Storm Water Fund to eliminate the accumulated deficit as of June 30, 2014, which could be higher as of the end of the year unless mitigated in another way such as by use of a portion of the

Richmond Sanitary funds available. There are two other funds which have negative cash which flow to the General Fund. There is also a negative balance of \$267,593 in the Public Financing Authority 2009 Bond Debt Service fund. This amount requires more research before it can be definitively determined how it should be addressed.

Budget Referral #12: Unemployment Claims and Settlements & Judgements - Can City Council receive the past 5 year history of expenses for Unemployment Claims and Settlements & judgements?

Response: Below is a Chart that details the budget and expenses (actual FY10 through FY14) and the year-end estimate for FY15.

Settlements & Judgemer	nts			
100-4424-617-40-00	Budget	Actual/Estimate		
FY15	100,000.00	100,000.00	(FY15 Actual to Date)	22,998.57
FY14	45,000.00	23,170.04		
FY13	45,000.00	14,670.67		
FY12	47,553.00	91,443.44		
FY11	18,729.00	19,596.95		
FY10	56,000.00	59,855.28		
Unemployment Claims				
100-4424-617-60-00	Budget	Actual/Estimate		
FY15	100,000.00	25,000.00	(FY15 Actual to Date)	39,225.78
FY14	209,500.00	13,765.03		
FY13	295,000.00	62,824.97		
FY12	150,000.00	256,143.00		
FY11	10,000.00	72,367.42		
FY10	5,000.00	20,097.00		

Budget Referral #13: Parks & Recreation - Can Council receive a one page outline of revenue and expense for FY2015-16 and a 5 year history of revenue and expense budget vs. actual for Parks & Recreation?

Response: Attachment A shows the revenue and expense for the Proposed Budget for FY2015-16 and the 5 year history of revenue and expense budget vs actual for Parks & Recreation.

Attachment A

FY1516 Plan Revenue 170,000.00 52,000.00 60,000.00 107,000.00 110,000.00 147,000.00 31,000.00 169,000.00 180,000.00 11,000.00 153,000.00 700.00 30,000.00	FY1516 Plan Total Expenses 199,556.00 68,322.00 68,626.00 171,215.00 240,025.00 183,972.00 133,100.00 50,030.00 148,386.00 358,704.00 179,978.00 19,970.00 144,322.00	FY1516 Plan Variance (29,556 (16,322 (8,626 (64,215 (45,025 (73,972 13,900 (19,030 20,614 (138,704 22 (8,970 8,678

GOVERNING STRUCTURE AND BASIS OF BUDGETING

The City of Hercules is a municipality incorporated in 1900 under provisions of the Constitution of the State of California. The City operates under a Council Manager general law form of government and is governed by a council of five elected members with staggered four-year terms. Additionally, City Council members act as the board of directors of the Hercules Public Financing Authority (PFA).

BASIS OF BUDGET AND FUND STRUCTURE

Local governments account for revenues and expenditures through separate funds such as General, Special Revenue, Enterprise, Internal Service and Fiduciary funds. The accounts of the City of Hercules are organized on the basis of funds, each of which is considered a separate financial entity. Each fund is comprised of a set of self-balancing accounts for its revenues and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are grouped into generic fund types and fund categories as follows:

Governmental Funds

- General Fund: The General Fund is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.
- Special Revenue Funds: Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts, or major capital projects) that are legally restricted to expenditures for specified purposes.
- Capital Projects Funds: The Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds and Trust / Agency Funds).
- Debt Service Funds: Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.
- Internal Service Funds: Internal Services Funds are a type of proprietary fund used to report any activity that provides goods and services on a cost reimbursement basis to other City funds and departments of the primary government and its component units.
- Trust / Agency Funds: Trust Funds are used to account for assets held by the City in a trustee capacity for individuals, private organizations, other governments, and/or other funds.

Business-Type Funds

Enterprise Funds: Enterprise Funds are used to account for operations:

(a) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the full costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred is appropriate for capital maintenance, management control or accountability.

Because enterprise funds use the full-accrual basis of accounting under FASB, all long-term debt liabilities and debt service payments are recorded within the enterprise fund itself. For tracking convenience, a separate fund for enterprise debt service payments is shown on the following table although all transactions are reported together within an enterprise fund's financial statements.

City budgets contain three major categories - operating, capital and debt. The table on the following page lists the City's funds and the categories in which a fund's financial transactions contain.

BASIS OF ACCOUNTING AND FINANCIAL REPORTING

The basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. The basis of accounting depends on the purpose for which the fund has been established and by its measurement focus.

All governmental and expendable trust funds use a current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are included on the balance sheet. Operating statements of these funds present increases (i.e., revenue/other financing sources) and decreases (i.e., expenditures/other financing uses) of net current assets.

All proprietary funds, pension trust and agency funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with operation are included on the balance sheet. Fund equity for proprietary funds (i.e., net total assets) is segregated into restricted net assets and unrestricted net assets. Proprietary fund type operating statements present increases (e.g., revenues) and decreases (e.g., expenses) in net total assets. Interest is capitalized on proprietary fund assets acquired with tax-exempt debt. Agency and trust funds are custodial in nature (assets equal liabilities) and do not involve measuring the results of operations.

Modified Accrual Accounting. The modified accrual basis of accounting is used by all governmental funds and expendable trust funds, as required by generally accepted accounting principles (GAAP), the

Governmental Accounting Standards Board (GASB) and the State of California. Under the modified accrual basis of accounting, revenues are recognized when they become measurable and available as net current assets. Property tax and assessments are recognized as revenues in the fiscal year in which the taxes were levied. Sales and use taxes are reported as revenue when collected by the State of California for subsequent remittance to the City. Intergovernmental revenues and investment earnings are accrued when earned. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements are satisfied. Fines and permits revenue are not susceptible to accrual as they generally are not measurable until received in cash.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt, recognized when due, and accumulated unpaid vacation and compensatory pay that is accrued and reported on the government-wide financial statements for governmental funds.

Full Accounting. As mentioned previously, the full-accrual basis of accounting is used for the enterprise and proprietary fund types. Under this method, revenues are recognized when earned and expenses are recognized at the time liabilities are incurred. The City has chosen to utilize GASB as its standard setting body for the accounting in its proprietary funds, as allowed since November 30, 1989.

Deferred revenues arise when potential revenues do not meet both the "measurable" and "available" criteria for recognition in the current period. Deferred revenues also arise when resources are received by the City before it has a legal claim to them, as when loans are extended upon agreement for future lease or loan repayment proceeds. In subsequent periods, when both revenue recognition criteria are met, or when the City has a legal claim to the resources, the liability for deferred revenue is removed from the balance sheet and revenue is recognized.

Past actual data presented in this budget document reconcile to the City's financial statements using the GAAP basis of accounting for governmental funds and full-accrual basis for enterprise funds.

Basis of Budgeting Method. The budget for FY 2015-16 uses the basis of budgeting method. The basis of budgeting and the basis of accounting are the same for all governmental funds. The budgeting basis for enterprise and proprietary funds do not include depreciation/amortization of debt principal and interest payments or the capitalization of capital construction costs or donated/contributed capital. Depreciation of capital assets for enterprise and internal service funds has been budgeted.

BUDGET PROCESS AND PROCEDURES

The City follows the following procedures in establishing the budgetary data reflected in this document:

- 1. The City Manager submits to the City Council a proposed operating budget for the following fiscal year. This budget includes proposed expenditures, by fund and department, and the revenues expected to finance them.
- 2. Public hearings are conducted to obtain taxpayer comments.
- 3. The budget is legally enacted through passage of a resolution before July 1.
- 4. The City Manager is authorized to transfer budgeted amounts between objects within the same department; however, any revisions, which alter total expenditures of any fund, must be approved by the City Council.
- 5. Formal budgetary integration is employed as a management control device. Special Revenue Fund budgets are adopted on a basis consistent with accounting principles generally accepted in

the United States (USGAAP) and are consistent with the basis used for financial reporting. Accordingly, actual revenues and expenditures can be compared with related budget amounts without any reconciliation. The General Fund budget is adopted on the budgetary basis, which is not consistent with accounting principles generally accepted in the United States of America. Commitments for material and services, such as purchase orders and contracts, are recorded during the year as encumbrances to assist in controlling expenditures. Appropriations, which are encumbered at year-end lapse, then are added to the following year's budgeted appropriations. However, encumbrances at year-end are reported as reservations of fund balance.

- 6. Under Article XIII B of the California Constitution (the Gann Spending Limitation Initiative), the City is restricted as to the amount of annual appropriations from the proceeds of taxes, and if proceeds of taxes exceed allowed appropriations, the excess must either be refunded to the State Controller, returned to the taxpayers through revised tax rates or revised fees schedules, or an excess in one year may be offset against a deficit in the following year. For the fiscal year ended June 30, 2015, based on the calculations by City Management, proceeds of taxes did not exceed the appropriations limit.
- 7. Budget revenue amounts represent the original budget modified by adjustments authorized during the year. Budgeted expenditure amounts represent original appropriations adjusted for supplemental appropriations during the year, which were contingent upon new or additional revenue sources and re-appropriated amounts for prior year encumbrances. The City Manager must approve adjustments to departmental budgets; however, management may amend the budgeted amounts within departmental expenditure classifications, with approval of the Finance Director.
- 8. Certain appropriations carryover and are re-appropriated for the subsequent year.
- 9. Budget appropriations for the various governmental funds become effective July 1. The City Council may amend the budget during the fiscal year. The legal level of budgetary control has been established at the fund level.

FY 2015-16 BUDGETARY PROCESS

There are two pieces to the budget: an operating budget and a capital budget. The departmental operating budgets represent current year operations whereas the capital budget covers major construction projects and the purchase of major equipment for multiple fiscal years. The operating and capital budgets are concurrently created and adopted in a similar manner. However the operating budget covers a one-year period while the capital budget covers a five-year period with money being appropriated for the first year along with the current year operating budget and the remaining four years of the capital plan being approved in concept.

The budget and this document is the culmination of a process in which the community -- through its elected leaders, commission/committee members, public hearings, and the advice of City staff -- decides upon the services it shall receive from its government under the constraint of resources available to it through taxes, fees, and transfers from the federal, state, and county governments.

Operating Budget Process

The FY 2015-16 budget process began in March with the request by the Finance Department for revenue projections and an estimation of operating expenditures requests.

City Council / Finance Commission Budget Meetings. The City Manager and the City's senior staff discussed the City's FY 2015-16 budget issues with the City Council/Finance Commission. The

Finance Commission includes five appointed members from the public. The budget work sessions provided time for the Commission members to discuss issues related to the budget.

Citizen Input on the Budget and Final Adoption. Citizen participation was encouraged during the City Council / Finance Commission budget work sessions. Additionally, public notice of Council consideration of the City's proposed budget resolution was advertised per state law. A copy of the proposed FY 2015-16 Budget was available at the City Clerk's Office for citizen review prior to the Council meeting scheduled on June 23, 2015 during a regularly scheduled City Council meeting. Any amendments made by Council are incorporated into the final adopted budget.

Mid-Year Budget Review and Revision Process. After the adoption of the budget, there are scheduled reviews of the budget's progress. In March of the fiscal year, there is a major mid-year (second quarter) review in which revenues and expenditures are examined and adjustments made if necessary. There are also first, third and fourth quarter reports prepared and reviewed with the Finance Subcommittee of the City Council. Any adjustments to the budget must be passed by City Council resolution.

In addition to these scheduled reviews of the adopted budget, there is a process for amending the budget during the year if a department finds that more money is needed to be spent on a program than was originally anticipated, or finds that there are new funded or unfunded needs to be met. In this case, the department must present to City Council its reasons for requesting a budget adjustment. As with the scheduled budget reviews, these budget adjustments must also be adopted by City Council resolution before a department can spend money amounting to more than the original appropriation.

Requests for adjustment to the budget fall into two categories:

- <u>Pre-Approval</u> Departments may present to Council on an individual basis revised funding requests for approval to proceed with a new initiative, program or project. Council approval of such requests constitutes formal budget appropriations authority.
- New Requests Department requests may be submitted through the mid-year revision resolution. Departments submit a memorandum to the City Manager outlining the cost of the requested item, its justification, the financing source(s), whether the request is a one-time or ongoing cost, and accounting codes impacted. If approved by the City Manager, these requests are listed on the subsequent mid-year revision resolution. City Manager review includes a determination of the necessity for the request and its fiscal impact.

Capital Improvement Budget

The Capital Improvement Budget is a plan for capital projects, fixed assets, and infrastructure owned by the City of Hercules. Requests from senior staff are reviewed by the City Manager as part of the annual budget development process to insure that the City's assets are maintained in an efficient manner and that Council long-term goals are met. The capital budget is organized by the department and/or fund responsible for the asset. The capital process starts with departments submitting their requests for maintenance, replacement, and the addition of assets under their control. The City Manager oversees a disciplined process to provide assurance to citizens that the City's assets and infrastructure are properly maintained.

USING THIS BUDGET DOCUMENT

The first section of this document is a general introduction to the budget and the document itself. The document covers both the operating and capital budgets for the City with most of this document being devoted to the City's operating budgets. In general, the document is organized by fund type with the majority of it devoted to the General Fund.

The first section of this document gives a general overview of the City's revenues, expenditures, and fund balances. This section gives a summary of the fund balances for all of the funds and the resources available to the City to meet current and future obligations. Also presented are the detailed account information of all the City's revenues, and a list of the City employee positions for all departments.

The General Fund section shows budget expenditure details of each General Fund department. The sections following the General Fund are the City's various special revenue funds, capital project funds, debt service funds, enterprise funds, and internal service and trust funds. In these sections, there are narratives discussing the services and initiatives of the funds, financial performance overviews, and detailed descriptions of expenditures. The Appendices section includes the resolutions that adopted the budgets, the adopted fee schedule, and a glossary of budgeting and accounting terms.

CITY ORGANIZATIONAL STRUCTURE

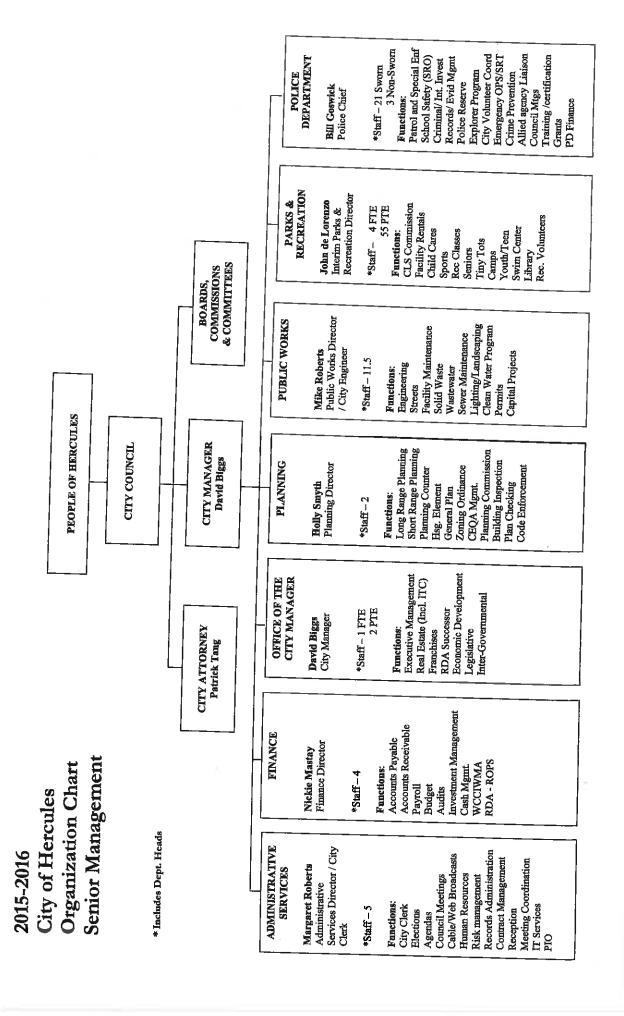

The organizational structure of the City of Hercules' municipal departments is found in the chart on the following page. The chart outlines the supervisory reporting structure of the City's senior staff. The City Manager reports to and serves at the pleasure of the City Council, a five-member elected body.

The City Manager holds a weekly Department Head Meeting to review the occurrences of the prior week and the upcoming week. This meeting is also held to discuss any items of special interest or concern.

CITY COMMISSIONS AND SUB-COMMITTEES

The City has two (3) commissions and five (5) full/sub committees appointed either by or jointly with the City Council, City senior staff and/or elected officials. Commissions and committees provide advisory recommendations, counsel and guidelines on their relevant topic areas. These commissions and committees include:

Planning Commission	Education Sub-Committee
Community and Library Services Commission	Public Utilities Committee
Transportation/Sustainability Sub-Committee	Public Safety/Traffic Sub-Committee
Finance Commission	Economic Development Sub-Committee

Fund Balances FY2015-16

- **-Fund Balance Projections**
- Revenue Table and Detail
- -Expenditure Table
- -Transfers in and transfers out
- -Employee Positions

FUND BALANCES OVERVIEW

Fund balance represents resources available to meet current and future obligations. They are necessary to provide liquidity throughout the year when the timing of receipt of revenues does not coincide with the level of expenditures, to provide a bridge between good and bad economic times, to avoid sudden changes in the organization's service level due to unforeseen poor fiscal conditions, and to have resources available to address unplanned, catastrophic events that affect the health, safety and vitality of the community.

For governmental funds, total fund balance is calculated as total assets less total liabilities and restricted reserves. Enterprise and internal service funds follow private sector accounting standards. Rather than fund balance, these business-type entities have "net assets" but it is also calculated as total assets less total liabilities.

With the implementation of an accounting change regarding governmental funds equity (i.e. GASB Statement No. 54), governmental fund balance categories are Nonspendable, Restricted, Committed, Assigned or Unassigned and enterprise funds categories are reported as Unrestricted Net Assets or Net Investment in Capital Assets.

This budget document will use the GASB 54 terminology in referencing fund balance.

Combined Fund Balances and Financial Performance

The General Funds fund balance is positive and the unassigned fund balance is projected to be positive for FY2015-16. The General Fund unassigned fund balance should always be a positive number. In the past, the General Fund relied heavily on transfers in from Fiscal Neutrality and other funds. In FY2011-12, the citizens of Hercules passed Measure O to increase the Sales Tax for 4 years. In FY2012-13, the citizens of Hercules passed Measure A to increase the Utility Users Tax for 5 years. It is imperative that the City creates ongoing revenue to negate negative unassigned fund balance and to increase the unassigned fund balance in future years.

The Fiscal Neutrality Fund is the City of Hercules "rainy day" fund. The assigned fund balance is projected to be positive \$1,364,327 for FY2015-16. The minimum fund balance for the City of Hercules Fiscal Neutrality Fund is at least 2 months of expenses, or 17% (this is what is recommended by the Government Finance Officers Association (GFOA)). The City of Hercules set a goal to achieve at least 1 months of expenses, or 8% for the minimum fund balance in the Fiscal Neutrality Fund for FY2014-15 Budgeted expenses for FY2014-15, the goal amount is \$1,105,779. The City of Hercules has achieved this goal and is working on the GFOA recommended minimum fund balance goal of at least 2 months of expenses or 17% which equates to \$2,333,552 for FY2015-16.

Lighting and landscape district assigned fund balances continue to be sufficient to meet their needs. The Bayside L&L unassigned fund balance is negative and this will require further operating cost reductions in the future in order to match its expenditures with projected revenue.

The Storm Water Fund unassigned fund balance is negative. As mentioned in the response to Budget Referral #11-Items Impacting General Fund Available Cash, at some point in time there should be a formal transfer from the General Fund to the Storm Water Fund to eliminate the accumulated deficit.

Adequate restricted fund balances remain in the City's street/funds maintenance and repair funds to fund road projects.

Unassigned fund balances in the City's development impact funds are reflected as zero amounts due to the fact that the Government Code 66000 requires that all these balances be restricted for specific capital projects related to new development. Further, fund balances in the internal service funds are appropriate to meet unexpected events or to fund future initiatives for investing in the City's information technology needs and equipment.

The amounts in the enterprise funds are categorized as Net Investment in Capital Assets and Unrestricted Net Assets. For presentation purposes we have utilized the Waste Water Bond Fund to show the dollar amount of bond proceeds transferred out for projects.

## Appendices FY2015-16

- -Budget Resolution FY2015-16
- -GANN Appropriation Limit Resolution
- -Glossary of Terms

#### **RESOLUTION NO. 15-036**

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HERCULES APPROVING THE 2015-2016 FISCAL YEAR CITY OF HERCULES BUDGET PLAN WHICH INCLUDES THE FIRST YEAR (2015-16 FISCAL YEAR) OF THE FIVE-YEAR (2016-2020 FISCAL YEARS) CAPITAL IMPROVEMENT BUDGET

WHEREAS, the City of Hercules (City) has prepared and adopted annually the operating and capital budgets of the various funds of the City with the intent of providing a policy program for City services and a financial system to carry out the planned program of services; and

WHEREAS, the City Manager has prepared and is submitting an operating and capital budget for fiscal year 2015-2016; and

WHEREAS, the City Manager and Finance Director has reviewed the proposed budget with the City Council and Finance Commission; and

WHEREAS, those reviews included consideration of the capital projects listed to be funded by the various City funds, and the presentation of individual operating budgets in those funds; and

WHEREAS, the operating and capital budget program reflects cost containment efforts in all departments and funds; and

WHEREAS, the budget, as presented, does not include provisions for any additional State or Federal takeaways or legislation that might adversely affect the proposed budget; and

WHEREAS, all grants received shall be appropriated and spent according to grant guidelines; and

WHEREAS, it will be necessary to carry over certain encumbrances and committed expenditures from the 2014-2015 fiscal year to the 2015-2016 fiscal year; and

**WHEREAS**, the City Council has reviewed the proposed budget for the Fiscal Year 2015-16 at public meetings on June 9 and June 23, 2015.

WHEREAS, the City Council held a Joint Public Hearing on June 23, 2015 for the purpose of reviewing and discussing the 2015-2016 fiscal year operating and capital budgets and providing the opportunity for public input and discussion.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Hercules as follows:

1. The City Council hereby approves the 2015-2016 fiscal year operating and capital budgets for all City funds as detailed in attachments hereto.

2. The City Council hereby adopts the FY2015-16 Annual Budget for the following funds:

General Fund	\$13,726,779
Special Revenue Funds	14,789,915
Capital Project Funds	9,199,511
Debt Service Funds	1,693,403
Enterprise Funds	19,563,275
Internal Service Funds	1,503,075
Trust and Agency Funds	1,430,856
Total	\$61,906,814

- 3. The City Council hereby approves the five year 2015-2016/2019-2020 Capital Improvement Budget in concept, recognizing that all listed projects may not currently be fully funded, but that staff will pursue any and every funding opportunity that is available to accomplish the desired capital program.
- 4. The City Council hereby authorizes the use of Available (Unassigned) Fund Balances in those funds where projected expenditures are greater than projected revenues, and that the Treasurer and/or the Finance Director be authorized to make loans during the fiscal year from one fund or entity to another fund or entity as deemed necessary and as appropriate.
- 5. The City Council hereby authorizes the Treasurer and/or Finance Director and/or his/her designee to carry over from the 2014-2015 fiscal year to the 2015-2016 fiscal year any encumbered amounts and associated appropriations, or any other amounts for items that are deemed necessary to the continuity of providing service to the community or are necessary for the initiation and completion of planned projects, programs or services.
- 6. The City Council authorizes the City Manager, the Treasurer, the Finance Director and/or their designees to approve and make payment for goods and services received by the City in accordance with the City's approved budgets, programs and policies.
- 7. The City Council authorizes the City Manager and his/her designee to expend budgeted City funds up to \$20,000 per expenditure without further City Council authorization, such as the purchasing process for Council's award of bid or award of services contract. Except as provided below, all City expenditures in excess of \$20,000 shall require the additional City Council authorization.
- 8. The City Council authorizes the City Manager and his/her designee, without further City Council approval, to expend up to \$20,000 per expenditure, subject to an aggregate limit of \$50,000, for non-budgeted emergency expenses during any fiscal year. However, the City Manager must report any action taken under this paragraph of this Resolution back to the City Council.

9. The City Council authorizes the City Manager and his/her designee, the foregoing notwithstanding and without further City Council approval, to: (1) pay all amounts allowed under contracts approved by the City Council regardless of the amount of any such payment(s) (in the case of the City, any project contracts approved and authorizing the City Manager authority to administer the entire contract, any principal and interest payments on debt issues, and any pass-through's collected for other agencies), (2) make any transfer of funds, or transfer of bond proceeds for capital projects in other funds, as identified in the City budget, (3) authorize change orders for any contract approved by the City Council in an aggregate amount not to exceed \$20,000 or 10% of the contract price, whichever is less, and (4) enter into and bind the City to contracts that are budgeted in the amount of \$20,000 or less per agreement.

The foregoing Resolution was duly and regularly adopted at the City Council meeting of the City of Hercules held on the twenty-third day of June 2015, by the following vote of the Council:

#### **RESOLUTION NO. 15-037**

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HERCULES ESTABLISHING THE APPROPRIATIONS LIMIT FOR THE 2015-2016 FISCAL YEAR IN ACCORDANCE WITH PROPOSITION 111 AND ARTICLE XIII B

WHEREAS, Article XIII B of the State Statute (Government Code Section 7910) requires the City of Hercules to establish each year an appropriations limit for the following fiscal year; and

WHEREAS, the determination of the appropriations limit is considered to be a legislative act and should be adopted at a regularly scheduled Council Meeting; and

WHEREAS, effective in the 1990-1991 fiscal year, Proposition 111 amended Article XIII B to allow a selection of annual adjustment growth factors (personal income, commercial/industrial assessed value, and population) which must also be adopted at a regularly scheduled Council Meeting; and

WHEREAS, the annual appropriations limitation has been computed by the Finance Director based on methodology in accordance with provisions of Government Code Sections 7900-7910 and Proposition 111 amendments, as indicated in Attachment A.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Hercules as follows:

1. The City Council hereby establishes the appropriations limit for the City of Hercules for the 2015-2016 fiscal year at \$355,288,371 using the County Population Change and the California Per Capita Personal Income Growth Change factors.

The foregoing Resolution was duly and regularly adopted at a regular meeting of the City Council of the City of Hercules held on the twenty-third day of June 2015, by the following vote of the Council:

**AYES:** 

M. de Vera, B. Kelly, C. Kelley, S. McCoy, D. Ronnero

NOES:

ATTEST:

Sherry McCoy, Mayor

Margaret/Roberts, MMC

the Services Director/City Clerk

#### Attachment A

### Annual Appropriations Limit 2015-16 Fiscal Year

California Per Capita Personal Income Change*

3.82% = 1.0382

(City Assessed Non-residential Valuation Growth Change is .36% or a 1.0036 Growth Factor)**

County Population Change*

.93% = 1.0093

(City Population Change is 0.71% or a 1.0071 Growth Factor)*

Calculation of Factor for Fiscal Year 2015-16

 $1.0382 \times 1.0093 = 1.0480629$ 

Appropiation Limit Calculation Per Information Provided by Department of Finance State of California Memo Dated May 2015. Ratios selected are the higher of the choices of factors prescribed in the law.

\$338,964,485 x 1.0481581 = \$355,288,371

Summary: City of Hercules Appropiation Limit for FY2015-16 is \$355,288,371

^{*}Data obtained from State Department of Finance

^{**}Data obtained from the Contra Costa County Auditor Controller

#### **GLOSSARY OF BUDGET TERMS**

**Adopted Budget:** The adopted budget is the annual City budget approved by the City Council on or before June 30.

**Allocated Costs:** Interfund transactions that constitute reimbursements to a fund for expenditures or expenses initially made from it but that properly apply to another fund.

**Appropriation:** An appropriation is the legal authorization granted by City Council to make expenditures and incur obligations for a specific purpose within a specific time frame.

**Assessed Valuation:** A dollar value placed on real estate or other property by the County as a basis for levying property taxes.

**Beginning Fund Balance:** Fund balance available in a fund from the end of the prior year for use in the following year.

**Bond:** A City may raise capital by issuing a written promise to pay a specified sum of money, called the face value or principal amount, at a specified date or dates in the future, together with periodic interest at a specified rate.

**Budget:** A plan of financial and program operation listing an estimate of proposed appropriations or expenses and the proposed means of financing them, for a particular time period. The budget is proposed or preliminary until it has been adopted by the City Council. Hercules' budget encompasses one fiscal year.

Capital Budget: Annual appropriations for capital improvement projects such as street improvements and building construction. Capital projects are supported by a five-year expenditure plan, which details funding sources and expenditure amounts. They often are multi-year projects, which require funding beyond the one-year budget period.

**Capital Projects Fund:** A fund created to account for all resources to be used for the construction or acquisition of designated fixed assets by a governmental unit except those financed by proprietary or fiduciary funds.

**Debt Service:** Payment of the principal and interest on an obligation resulting from the issuance of bonds, notes or leasing arrangements.

**Department:** An organizational unit comprised of divisions or programs. It is the basic unit of service responsibility that may include a broad mandate of related activities. It is possible for a department to have only one division.

**Division:** A subsection (or activity) within a department, which furthers the objectives of the City Council by providing specific services or programs.

**Enterprise Fund:** A type of fund established for the total costs of those governmental facilities and services, which are operated in a manner similar to private enterprises. These programs are entirely or predominantly self-supporting. The City of Hercules maintains a Sewer Enterprise Fund.

**Expenditures:** Monies spent, including current operating expenses, debt service and capital outlays.

**Fiduciary Funds:** These funds account for assets held by the City in a trustee capacity. The budget does not appropriate fiduciary funds.

**Fiscal Year (FY):** The City's year for accounting and budgeting purposes, that begins on July 1 and ends on June 30.

Full-time Equivalent (FTE): The amount of time a regular full or part-time position has been budgeted for in terms of the amount of time an employee works in a year.

Fund: An independent fiscal and accounting entity used to record all financial transactions related to the specific purpose for which the fund was created. There are four major types of fund: General, Special Revenue, Enterprise, and Fiduciary.

**Fund Balance:** The amount of financial resources available for use. Generally, this represents the excess of assets over the sum of liabilities and restricted reserves. For enterprise funds, it is the excess of current assets over current liabilities.

Gann Appropriations Limit: Article XIIIB of the State constitution was amended by Proposition 4 (Gann initiative) in 1979. Article XIIB limits growth in the spending of tax proceeds to tax proceeds appropriated in the "base year" of 1978-79 times the product of the allowable annual percentage change in a cost-of-living factor and the allowable annual percentage change in a population change factor. The cost-of-living factor is the larger of the annual percentage change in the State per capita personal income or the annual percentage change in the local non-residential assessed valuation due to new construction. The population change factor is the larger of the annual percentage change of the jurisdiction's population or the annual percentage population change of the county in which the jurisdiction is located.

General Fund: The primary fund used to account for all revenues and expenditures of the City not legally restricted as to use. This fund is used to offset the cost of the City's general operations. Examples of departments financed by the General Fund include the Police, Public Works and Administrative Departments.

**Grant:** Contributions, gifts of cash or other assets from another governmental entity to be used or expended for a specific purpose, activity or facility.

Guaranteed Investment Contract (GIC): A contract that guarantees repayment of principal and a fixed or floating interest rate for predetermined period of time.

**Infrastructure:** Facilities on which the continuance and growth of a community depend, such as streets and roads, sewers, public building, parks, etc.

Interfund Transfer In/Out: Monies transferred from one fund to another. Such money is transferred to finance the operations of another fund or to reimburse the fund for certain expenditures.

Internal Service Funds: These funds provide services to City departments and recover their costs through user charges. The Vehicle Replacement Fund is an Internal Service Fund managing the replacement and maintenance of the City fleet.

Method of Accounting: The City's General Fund budget is developed using a modified accrual basis of accounting, with revenues being recorded when measurable and available, and expenditures recorded when the liability is incurred. Enterprise Funds and Internal Service Funds are budgeted on a generally accepted accounting principles (GAAP) basis, which for Proprietary Funds is on a full accrual accounting basis.

**Operating Budget:** Annual appropriation of funds for on-going program cost, including salaries and benefits, services and supplies, debt service and capital outlay.

**Operating Capital Outlay:** A budget appropriation category which budgets all equipment having a unit cost of more than \$2,500 and an estimated useful life of over one year. These are considered an operating expense and are differentiated from capital expenditures by the amount of money they cost. Any expenditure over \$2,500 with an estimated useful life over one year is capitalized.

**Operating Transfer:** Amounts transferred between funds; not considered a revenue or expense. For example, legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended.

**Ordinance:** A formal legislative enactment by the City Council. It has the full force and effect of law within the City boundaries unless it is in conflict with any higher form of law such as a State statute or constitutional provision. An ordinance has higher legal standing than a resolution.

**Program:** A program is an activity or division within a department, which furthers the objectives of the City Council by providing services or a product.

**Reserve:** Represents the portion of fund balance set aside for financing future capital improvements or the outlay of capital projects in any given year, and addressing one-time emergency needs.

Resolution: A special order of the City Council, which has a lower legal standing than an ordinance.

**Revenues:** Monies received or anticipated by a local government from both tax and non-tax sources during the fiscal year.

Salaries and Benefits: A budget category which generally accounts for full-time and part-time employees, overtime expenses and all employee benefits, such as medical, dental and retirement.

Services and Supplies: Expenditures for supplies, materials and services which ordinarily are consumed within a fiscal year and which are not included in inventories.

**Special Revenue Funds:** These funds account for the proceeds derived from specific revenue sources that are legally restricted to expenditures for specified purposes.

**Triple Flip:** On July 1, 2004 the State began reducing the Sales Tax Allocation to Cities by .25%. The .25% reduction was used for security for the State's "Economy Recovery Bonds". This mechanism is known as the triple flip and is outlined in Revenue and Taxation Code Section 97.68. Cities and counties are then provided with ad valorem property tax revenues in lieu of these revenues. These revenues are then transferred from the ad valorem property tax revenues that would otherwise be allocated to the county's Educational Revenue Augmentation Fund.
